

## Wire and Cable Professionals Since 1970

WIRE AND CABLE, INC.

LOCKHEED MARTIN

BOEING

What truly sets SEA Wire and Cable apart from other Mil-Spec product suppliers is our people. Our sales and support staff take pride in assuring that you not only receive a high-quality product in a timely manner, but that you also have a pleasant experience every time you deal with us. With over 4,800 satisfied customers world wide, we have built a reputation for high-quality products at competitive prices backed by outstanding customer service.

You can rely on SEA Wire and Cable as the single best source for all of your Mil-Spec product needs. SEA is a small, woman-owned business, headquartered on eight acres in North Alabama near Redstone Arsenal, home of the Army Missile Command. SEA stocks its inventory in a single facility, guaranteeing your order will be filled accurately and on time – with same-day shipment on stock items.

# Wired For Performance.

## SEA Wire and Cable, Inc.

SEA Wire and Cable is a privately held corporation headquartered in Alabama. From SEA's beginning in 1970, its mission has been to respond to your needs with **accurate technical support**, **product availability**, and **professional service**. Our dedication to fulfilling customer needs paid off during the 1980's as SEA developed into a full value added stocking distributor of Mil-Spec and aerospace products.

And now with a total of 90,000 square feet of space, a clean room, a state of the art logistics center, and new computer management systems, SEA is prepared to grow with you into the next century.

Now a leading supplier of Mil-Spec products, SEA is located in a large modern facility spacious enough to encourage continued growth. With its entire inventory under one roof, SEA stocks over 11,000 items and 40 million feet of wire to give you a 24-hour shipment on in-stock parts. With more than 4,800 customers worldwide, SEA has earned an international reputation for **high quality**, **responsiveness**, **honesty**, and **complete customer satisfaction**.

Our employees average 8.5 years of experience with SEA and we have a sales staff with 137 years of experience in the wire and cable industry. Everyone at SEA is committed to meeting the needs of our customers by staying focused on the basics: **consistent, reliable quality** and **exceptional customer service**. Each employee, at all levels within our organization, is conscientiously and energetically involved in making SEA the top supplier of Mil-Spec and aerospace products. All orders – regardless of size – receive identical attention to detail. Our systems for quality control, documentation, and quick turnaround work for every client, every order no matter how large or small.

## Superior Quality / Fast Delivery

From the beginning, SEA has specialized in wire, cable, tubing, termination sleeves, and other cable assembly products for the most demanding electronics applications. SEA's quality-control procedures meet Mil-I-45208A, UL, and CSA certification requirements and are AS9100 certified. SEA is on the approved quality assurance list for Boeing, Raytheon, Northrop Grumman, Unison Industries, Lockheed Martin, and other major aerospace companies. SEA only sells military products manufactured by QPL manufacturers, the select group of wire and cable companies whose products pass a series of US Government issued quality assurance tests.

When you need wire, cable, tubing, and associated products, SEA Wire and Cable has what you are looking for: **low minimums**, **fast delivery**, **quality products**, and **competitive pricing**.

Spectrum Technology Lasermarker
